

Anti-CD30 (TNFRSF8) Recombinant Antibody Fragments

Target:	Anti-CD30 (TNFRSF8)
Clone Name:	13B4.E10
Catalogue Number:	RAF9699
Description:	Recombinant single domain antibody fragments (sdAb) ¹ obtained from Alpaca and expressed in an E. Coli to bind against CD30 (TNFRSF8) antigen.
Activity/ Specificity:	Tested positive against CD30 antigen. Cross-reactivity checked against a panel of known cross-reactants and non-specific antigens.
Applications:	These fragments contain His and c-Myc fusion tags which may be used for detection or immobilisation. ² Recombinant antibody fragments are suitable for use in ELISA immunoassays, biosensor applications, western blots, immunohistochemistry, flow cytometry, immunoaffinity purification and most other immunological methods*.
Size:	Approximately 18 kDa
Quantity:	1 mg
Concentration:	Typically >1mg/ml
Purity:	>90% assessed by SDS-PAGE.
Storage:	These fragments are stable at 4°C. It is recommended that for storage over extended periods they are kept at -20°C and should not be subject to repeated freeze-thaw cycles.
Buffer:	1x PBS containing 0.09% sodium azide preservative.
Dilution Factor:	To be determined by end-user.

* This product as supplied is intended for research applications only. It is not for use in therapeutic or diagnostic applications without the expressed written authorization of Randox Life Sciences.
